

# HEALTHCARE SPECIFIC BACKGROUND SCREENING & ONGOING MONITORING SOLUTIONS

- **Ensure** the integrity of your staff and compliance program.
- **Standardize** your screening processes system-wide.
- **Safeguard** your organization and mitigate risk.

# THE HEALTHCARE COMPLIANCE CHALLENGE

Compliance officers must stay up-to-date with all the laws, rulings, and regulations governing the healthcare industry, including the oversight of the Office of Inspector General (OIG). A background screening program is a must for compliance, but its implementation can be challenging with limited staff resources and with healthcare organizations moving towards standardization.

**How can you build an efficient, effective,  
and compliant screening program to reduce risk?**

## PRECHECK CAN HELP

From your employed staff to physicians and vendors, PreCheck offers a healthcare compliance suite of talent screening solutions to help compliance officers standardize processes while mitigating risk for their organization. Our healthcare-focused solutions can help you meet industry standards and comply with regulatory directives and exclusion screening guidelines. Additionally, we can customize our solutions to seamlessly integrate with your healthcare organization's processes system-wide.

# Exclusion & Sanction Screening

SanctionCheck® exclusion and sanction screening ensures everyone engaged with your facility is compliant. CMS directives and OIG guidelines recommend a monthly search of federal and state databases. If not done thoroughly, your facility is at great risk.

## KEY BENEFITS

### Maintain Compliance

PreCheck's healthcare focus helps you stay ahead of the stringent compliance standards unique to the industry.

### Save Time

You'll never have to sort through pages of "possible name matches." Our investigators will conduct the name resolution at no additional cost to you.

### Reduce Risk

Be audit-ready at all times by ensuring that excluded individuals and entities are not engaged by your facility.

## AVAILABLE FEATURES

### Simple Exclusion Screening

Easy access and intuitive, simple-to-use web-based solution provides on-demand screening for the latest data updates. We'll notify you of any positive returns on excluded individuals and entities.

### Checks the Following Exclusion Lists:

OIG List of Excluded Individuals and Entities (LEIE), GSA System for Award Management (SAM), Food and Drug Administration (FDA), Office of Foreign Assets Control (OFAC), TriCare Sanction List, Public State Medicaid Exclusion Lists, several "Most Wanted" Lists and many more lists.

### Thorough Reporting

Your due diligence to not engage excluded individuals and entities is documented in our complete screening report. We provide name match resolution, so you won't have to spend time sorting through possible matches.

# License Verification & Ongoing Monitoring

LicenseManager Pro® is a healthcare license management system that provides ongoing, post-hire primary source verification of licenses, certifications & registrations. We help you stay ahead of accreditation requirements, CMS directives, and Federal and State law with a streamlined process.

## KEY BENEFITS

### Solid Compliance

PreCheck's LicenseManager Pro system facilitates compliance through primary source verification, routine quality assurance, and dual credentialing.

### Seamless Integration

Keep your licensure data consistently in-sync with our bi-directional data integration, available at no additional cost.

### Simplified Monitoring

Seamlessly monitor required licenses and certifications, board actions, and system reports with our License Requirement Table customized to your specifications.

## AVAILABLE FEATURES

### Automated Credentials Monitoring

Track healthcare professional licenses. Over 1,100 Primary Source verifiable licenses and certification types monitored. Monitor certifications and registrations such as ANCC, ARRT and PTCB. Get daily Nursys Notifications through our direct integration with NURSYS®.

### Bi-directional Data Integration

Ensure your staff's data is always in sync with the data monitored in LicenseManager Pro in real-time. Use the monitored data with your internal programs such as scheduling and system access with our custom integration capabilities.

### License Requirement Table

LicenseManager Pro adds licenses to be monitored based on job code; and acts as a layer of compliance protection should someone fail to enter the appropriate credential in your internal database.

# Employee Background Checks

Make better hiring decisions by ensuring candidates are qualified to work at your organization. We provide a deeper level of intelligence that will give you and your patients a higher level of confidence and peace of mind.

## KEY BENEFITS

### Higher Quality

We investigate further to verify background check components at the primary source. The result? Highly thorough, accurate reports.

### Quick Turnaround

Reduce your organization's time to fill (TTF) and meet orientation deadlines with our excellent turnaround times.

### Easy to Use

Don't waste time deciphering background checks with our easy-to-read reports and simple-to-use system.

## AVAILABLE FEATURES

# Client Success Profile

**Client Since:** 2012

**Products:** Exclusion Screening

PreCheck does not nickel and dime us. They are helpful partners in the sanction screening process. **PreCheck stays current with regulatory requirements, is very fairly priced, and has depth of knowledge in the services they provide; but people make a company, and the individuals at PreCheck are professional and a pleasure to work with,** in my experience.”

– Director of Compliance and Privacy,  
Daughters of Charity Health System

# Client Success Profile

**Client Since:** 2013

**Products:** Medical Staff Background Checks, Exclusion Screening

“Working in the fast-paced healthcare industry, PreCheck has been a reliable, efficient, and useful service for my team. We use both their background check and drug screening services, and we have been pleased with both. All the results and invoices are now located in one system, which has streamlined the process for many of the different moving parts within my company. **I would recommend PreCheck to any healthcare organization looking for an easy and reliable way to ensure provider quality.**”

– Senior Manager, Risk & Provider Relations, Barton Associates

# Client Success Profile

**Client Since:** 2012

**Products:** Employee Background Checks, Medical Staff Background Checks, License Monitoring, Exclusion Screening

“My company has been using PreCheck since 2012. In that time, they have worked very hard to meet our company’s needs and continually provide excellent customer service. We are using them for background screenings, license monitoring, and sanction checks. **By using PreCheck, we can be confident that we are exceeding federal and state laws and regulations. PreCheck makes my job so much easier!**”

– Compliance & Credentialing Specialist, Orianna Health Systems
