The South Dakota Department of Health Office of Child and Family Services asks for your help to gather information about the health needs of youth in grades 5-12.

WHAT: Complete a short survey to help us understand and address the health needs of youth.

WHO: South Dakota youth in grades 5-12
(both in and out of school)

WHY: The data being collected is not research, rather findings from the survey will inform long term planning and programming for OCFS programs to better support the health needs of South Dakota youth.

HOW: Go to sdyouthsurvey2019.questionpro.com or scan the QR code on the left to complete the survey.
