

There is Another Way

Today one of the most important struggles hospitals and healthcare organizations face is reducing cost. With margins getting tighter and tighter it is becoming increasingly difficult to stay in the black. One of the larger costs entities face is Prescription Drug Coverage. These are the realities healthcare organizations face today regarding Prescription Coverage:

- Hospitals have little to no leverage, a “competitive” bidding process does not exist
- The smaller the organization the less cost savings leverage
- Brokers make money on both sides from the hospital and Prescription Benefit Manager (PBM)
- Best interest of the hospital is never considered no matter what Brokers say

Many hospitals and healthcare organizations have a difficult time lowering their PBM costs simply due to the fact they have a small group of employees and dependents under their current group umbrella. PBM’s use brokers to convince you that they can deliver you a “great deal” when in reality they’re just a mechanism of the PBM’s to get you to use their services.

What if there was a different way to approach PBM coverage? Something that could deliver a **SIGNIFICANT** savings to your organization’s drug benefit costs and disrupt the marketplace by putting the power into the hands of the people receiving the PBM coverage vs. the PBM’s themselves?

Now there is a way...RXPool™. Performance Healthcare Solutions’ RXPool PBM Savings Program™ was designed to be a disrupter in the PBM space. RXPool™ is a **RISK-FREE** way for hospitals to take the control of PBM costs back into their hands.

By joining RXPool™ you are effectively teaming up with hundreds of other healthcare organizations to create an impressive Group of employees and dependents that will force PBM’s to provide a substantial savings to due to the shear size of the RXPool™ Group.

The benefits of joining RXPool™ are:

- No risk to join
- Having the price benefit of a large group, that the PBM’s currently benefit from
- Healthcare organizations working together to lift each other up
- Access to the largest aggregation of hospital lives in the country
- Being part of a constantly growing aggregation of lives thereby experiencing a continual cost reduction
