

SDAHO is excited to announce a new member benefit. Beginning in 2022, all SDAHO members will receive virtual and on-demand education; and one registration to a SDAHO conference (Post-Acute or Rural Health Leaders), as part of your SDAHO membership.

What does this mean for members?

SDAHO members (hospital, nursing home, home health, hospice, and assisted living) will receive:

- All SDAHO hosted virtual webinar education for 2022 (live and on-demand)
- Access to 50+ live presentations from content experts to offer insights, up-to-date guidance and best practices on a variety of topics.
- One complimentary registration to either Post-Acute Care Conference or Rural Health Leaders Conference in 2022
- Opportunity to receive continuing education credits for nursing home administrators and social workers

Who receives this benefit?

- All SDAHO dues paying facilities (includes all staff)
- Facility will select who will receive complimentary registration to Post-Acute Care Conference OR Rural Health Leaders Conference

How will staff register and receive notification of education opportunities?

- Members will designate specific contact(s) at their facility/organization to help communicate webinars and share education information. SDAHO will work directly with designated contact.
- All members will have access to the SDAHO Education Portal. This site will include links to register, recordings, attestations for continuing education, and handouts.
- SDAHO will continue to provide weekly updates on education opportunities through the Unified Voice Newsletter, website, and social media to keep members engaged and aware of current and upcoming education.

Next Steps

- SDAHO will send a survey to each member facility to determine designated facility contact.
- Specific information on ways to register, calendar of events, and instructions on accessing the portal will be available in early December.
