 - Arlington

IMPACT OF NURSING HOME CLOSURES

COMMUNITY

- Loss of Confidence for the Future and Decrease in Population
 - Older populations are relocating to communities (both in and out of state) to be closer to adult children with long-term care options.
 - Assisted living facilities and home health agencies are adversely impacted by loss of referral source in community.
- Loss of Employees in the Community
 - Mobridge Closure: 109 bed nursing home (NH) employed nearly 130 full-time staff
 - Workforce leave the healthcare industry after closures
 - Workforce leave employment to care for family without NH
- Loss of Tax Revenue from a Large Local Employer
- Decrease in School Enrollment when Families Relocate for Work
- Loss of Institutional Taxes as well as Workforce Salaries
- Decrease of Visitors to Community (visiting residents in NH)
 - Impact to hospitality (hotels, restaurants, etc.) as community sees a decrease in visitors

HOSPITALS

- Loss of Inpatient Days
 - Nearly 10% decline
- Loss of Laboratory and Diagnostic Imaging Ancillary Revenue
 - Roughly 12% decline
- Loss of Ambulance Runs
 - Nearly 15% decline
- Increased Inpatient Length of Stay
- Longer Unnecessary Care Stays
 - Strains workforce and increases uncompensated pay
- Case Management Frustrations with Discharge Planning

RELOCATED RESIDENTS

- Increased Depression
- Increased Stress
- Decreased Social Engagement (unfamiliar people and settings)
- Disorientation and Confusion
- Unplanned Weight Loss
