WHAT TO KNOW

Palliative Care is specialized medical care for people with serious illness. This type of care is focused on providing relief from the symptoms and stress of a serious illness. The goal is to improve quality of life for both the patient and the family.

- Palliative care is provided along with curative treatment.
- Palliative care is appropriate at any age and at any stage in a serious illness.
- Palliative care can help ease pain, stress, or other symptoms due to serious illness.
- Palliative Care is covered by most insurance plans, including Medicare and Medicaid.
