

AHRQ Safety Program for HAI Prevention: VAP/VAE

ENROLL
NOW

Are you interested in learning how to improve ventilator-associated pneumonia and ventilator-associated events (VAP/VAE) in your acute care hospital?

You may be eligible to participate in this new program!

About the program

- Free 9-month program beginning September 2026
- Engage in brief educational webinars and co-learning opportunities with access to experts
- Learn strategies to improve infection prevention procedures and patient safety culture

Eligibility

- Adult intensive care units (ICUs)
- Minimum of 50 beds per hospital and 5 beds per unit
- Any electronic health record system
- Based in the United States

Benefits of participating

- ☒ Reduce VAP/VAE rates in your unit(s)
- ☒ Gain free expert consultation to promote infection prevention procedures and patient safety culture
- ☒ Receive regular benchmarking reports comparing unit progress to those of similar units
- ☒ Enhance teamwork and communication
- ☒ Receive CEU/CME credits
